

SCIENTISTS DATING FORUM

Learn, debate and create!

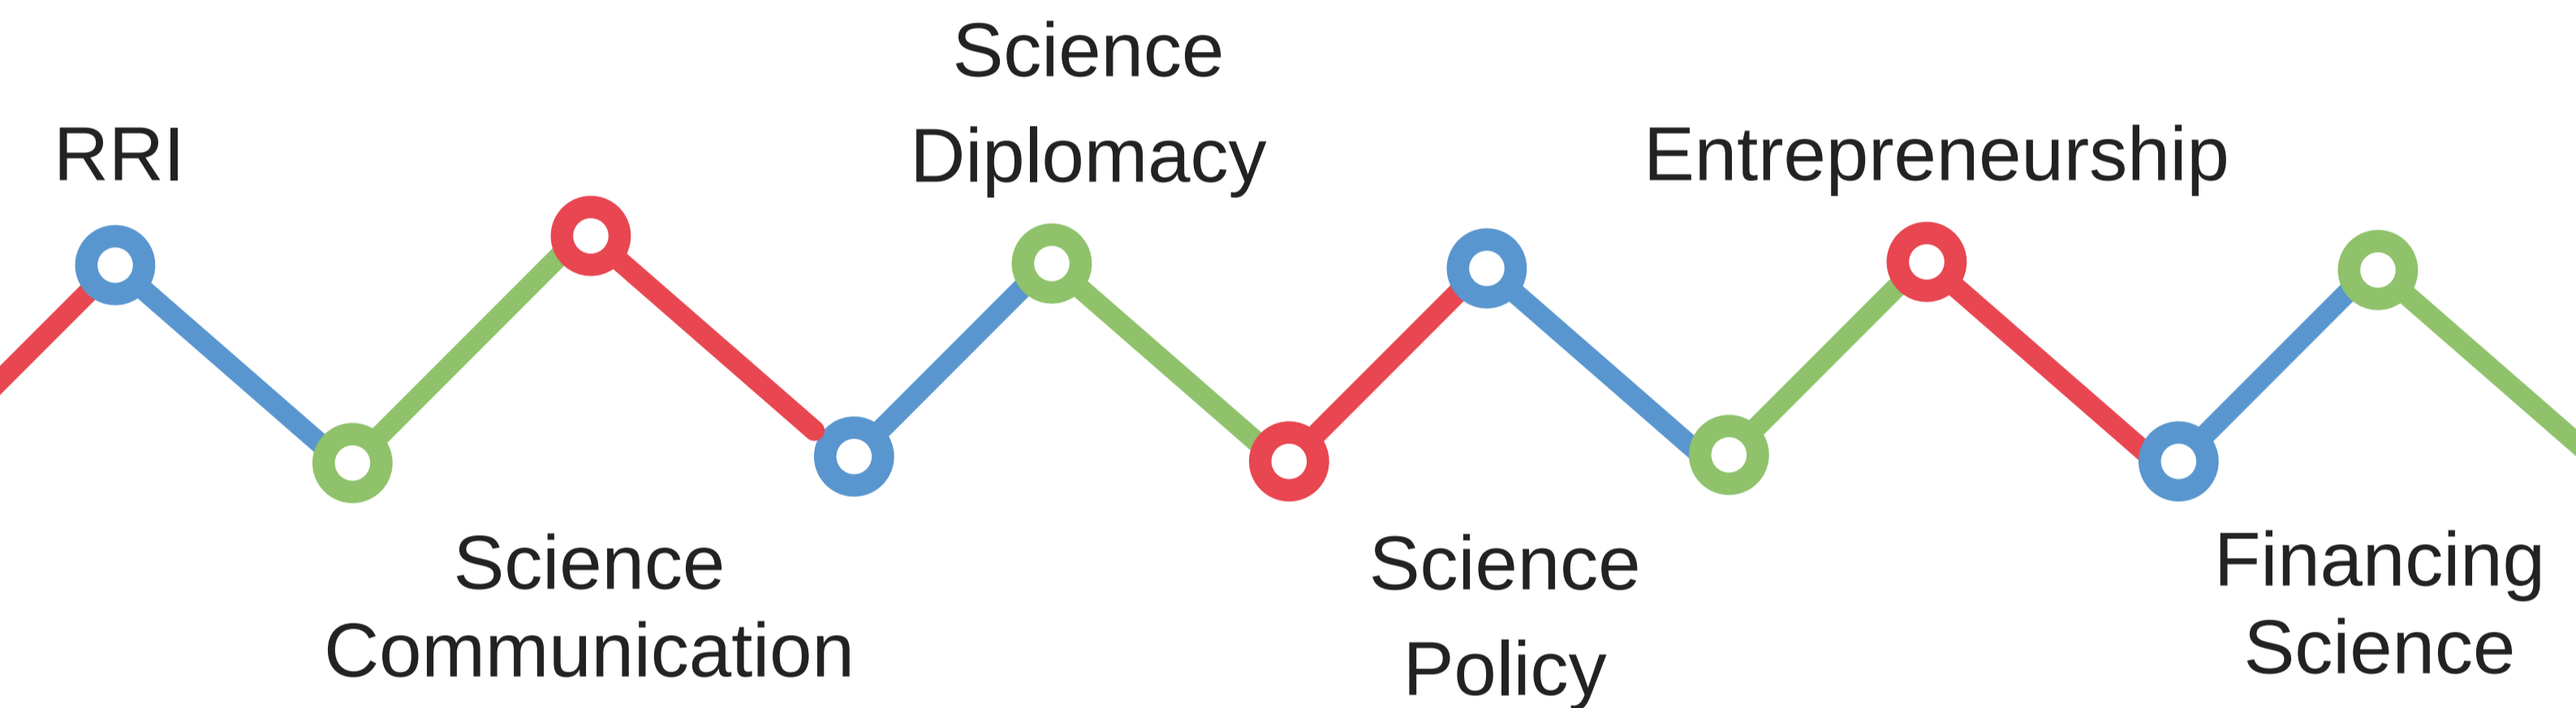

Society

Economics

Politics

A new young, independent and interdisciplinary think tank is in town!

Scientists, let's date with society, economics and politics!
Join us in this adventure! info@sci-df.org

Scientists Dating Forum

@SciDating

www.scientistsdatingforum.org

We aim at bringing scientists together and foster **education, debates and engagement** regarding how science influences politics, economics and society and vice versa.

Who are we?

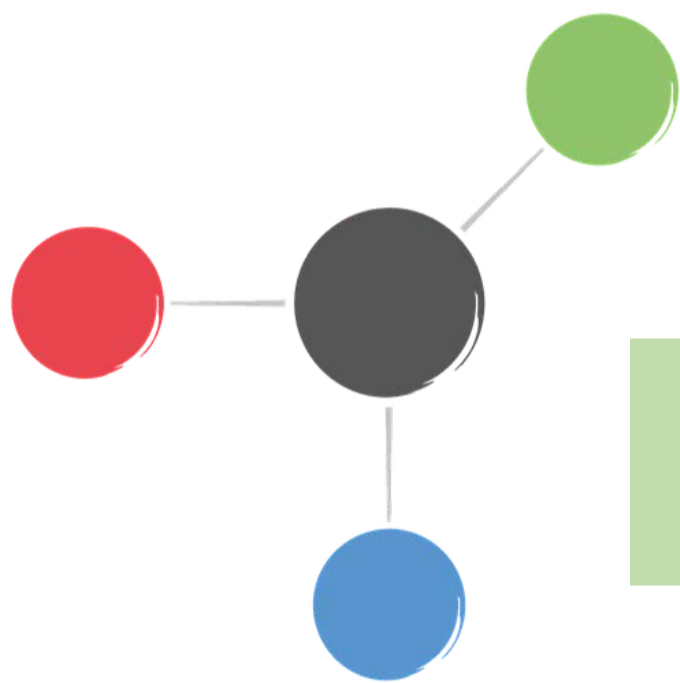

- Grassroots movement from Barcelona
- Association founded in 2016
- Growing team of 30 young dynamic professionals from the research, communication and managerial fields.

How to communicate your research? How to involve citizens into your science project?

Where does the money come from, which finances research? How to become entrepreneur of your scientific results?

How are scientific strategies of the EU, counties, research institutes or of companies elaborated? How can science serve for diplomacy?

SCIENTISTS
DATING FORUM
SOCIETY POLITICS ECONOMICS

What do we do?

- **Debate sessions** in bars
- **Workshops** in research institutes
- Launch and lead **calls for action** (project pitches, debates etc.)
- Organise major **Forums** which will be a mix of speeches, workshops, roundtables, science shows and social activities.
- **Contribute** actively to related congresses in Europe
- Organise **social events** for scientists

Why to get involved?

- Transmit your interest into political, economic and societal causes to the scientific field
- Collaborate in a dynamic young team of scientists, project managers, journalists, etc.
- Get to know and work with scientific entities from the region.
- Build up together a new actor in the scientific community
